From the Rochester Union, Aug. 18. Dreadful Confingration-Five Blocks and Twenty

Stores in Ruin. Our city has been visited by a dreadful calamity, and a large district in one of our business centres has been laid in ruins by fire. From eleven o'clock last night until daylight this morning the devouring element held sway, and was not subdued until every building on the south side of Main street, from Stone to St. Paul street. had been destroyed, together with all the stores on the east side of South St. Paul street to Buckland's Block, including a number of buildings on Minerva alley. The well-known Minerva Block, and the Third Presbyterian Church, are among the buildings totally destroyed .-The fire may be said to have fairly spent itself without resistance, for it burned until it reached walls which offered nothing of a combustible nature.

Our celebration of the Atlantic Telegraph has been an expensive one to Rochester, and has been attended by a calamity long to be remembered. On Monday night, when the message was received, the bells were rung, and a jubilee followed impromptu. The firemen and citizens had scarcely retired before a fire broke out en Water street, which destroyed some \$25,000 worth of property. The fatigues of the evening incapacitated the firemen from labor there, and the loss was therefore greater in consequence. Last evening the formal celebration took place, in which all participated, and soon after retiring the alarm of fire was sounded, and the dreadful conflagration began. Again the firemen and citizens were illy prepared to meet it, and the fire did

The fire originated soon after eleven o'clock in the livery stable of Heavey & McAnally, on Minerva alley. The flames quickly spread to the eastward, northward and westward. The Third Presbyterian Church on Main street speedily took, and was destroyed without a drop of water being thrown upon it. So was the brick block at the corner of Stone street, owned by Mr. Butts. The fire could go no farther east for want of material, but the three-story brick block next to the church on the west, owned by John F. Bush, was already on fire. and was consumed. The large block next, west of Minerva alley, and built in the same style as Minerva Block, soon caught fire, but for a time there was hope that it might be saved.

This hope was soon dissipated, but as it was separated by a brick wall from Minerva Block, it was thought the latter might be saved. Here, too, all were disappointed -the fire lingered for awhile at the wall, but when it passed, it rushed wildly to the work of devastation, and after laying this fine block in ruins, it passed southward along St. Paul street, till it had destroyed some fifteen

The grand total by our figures stands \$172,000, with a total insurance of \$103.500. There are some small losses and insurances which we have probably omitted. This is by far the most destructive fire ever known in this city.

"If there were a real alliance between the English and French people; if those great nations loved each other so cordially that neither knaves, nor fools, nor interest, nor ambition, nor any considerations of policy could put disunion betwixt them; it would most unquestionably be a grand thing for Europe and for the world. But is there such an alliance? And do the English and the French people really love each other? It seems not. There was a time, at the first outbreak of the war against Russia, when such an alliance was possible; but, as that war proceeded, it became but too evident that it was better for England to fight alone than to fight with such an ally. Alone the British forces might have taken Sebastopol within three months. DR. O. PHELPS BROWN, the great curer of Consumption, was for several sears so badly afflicted by Dyspersia, that for a part of the time he was confined to his bed. He was evidently cured by a prescription furnished him by a young clairvoint girl. This prescription, given him by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of Firs as of Dyspersia. The ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage. Address

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING AUGUST 26TH; 1858.

TURPENTINE-Since our review of Thursday last the marland situated in Columbus county, five miles from the ket has ruled unsteady, and as may be seen from our table of sales below prices have fluctuated from \$2 75 to \$2 85 low stage, and scarcely anything has been brought in from above tide-way, in consequence of which the transactions

The arrivals of Pale have been small, and nearly all on market is in second hands, which is generally held above the views of \$2,000 | buyers. The quantity received has been meagre for several weeks past, and the stock remaining on market has rates are without change. become very much reduced-being confined to a few small parcels of ordinary quality second hand ones. In the absence of stock we have to report light transactions at \$1 80 a \$1 90 for lots as they run, and \$1 95 a \$2 each for selectedcash and time.

has accepted a seat in the East Indian Council. COFFEE.-Nearly all descriptions is in moderate supply, and nothing doing except in the retail way. We refer to our table for store rates, as in quantity and quality. COTTON-No receipts, and but little (if any) on market .-

In the absence of transactions we are unable to give a cor-

rect quotation. CORN MEAL.—The receipts from the country have been meagre for some weeks past, and the supply in dealers hands is quite small; in fair demand. We quote at 85 a 87 cents for yellow, and 90 a 95 cents per bushel for white, according to quantity and quality.

FLOUR-The arrivals of State brands both per river and railroad have been unusually light for some time past, and the market for the past week or two has been almost entirely bare. In consequence of this fact a brisk demand has sprung up, and prices have advanced fully 50 cents per bbl. on quotations of Thursday last. Two or three small parcels have been brought in during the past week and sold from store at \$8 for superfine. This figure, however, can hardly be looked upon as a fair criterion of the market, and could not be maintained should the receipts prove worthy of note. For quotations of other grades we would refer to our table. FISH .- A small lot of Mullets was received a day or two

since, and sold at \$7 per bbl. GRAIN-The CORN market has ruled rather quiet since our last, and prices have gone down a shade. Dealers are anticipating fair receipts, and seem but little disposed to operate. Two cargoes of 2,800 bushels received from Hyde county a day or two since, and changed hands at 74 a 75 cents per bushel. We also note about 1,500 bushels received per railroad, 500 of which come to a dealer, and balance nnsold. Oars None have been received here for several weeks past, and the supply of former receipts remaining in dealers hands is quite small; we note, however, merely a retail demand, and quotations in table are nominal.-PEAS-The stock of Cow on market is small, though fully sufficient for present purposes as we note scarcely any demand. Parcels would be difficult of sale at lowest figures in table. RICE-There is a fair stock of clean in store, and only a light demand from the trade. LIME.—We note a full stock of former arrivals in dealers hands, and scarcely any demand exists. Selling from store at 90 cents a \$1 per cask, in quantities to suit.
